

NABEEHA ALI

Junior DevOps Engineer

About Me

A 3rd-year BSCS student at the Institute of Space Technology with strong technical skills in web development (HTML, CSS, React.js, JavaScript, MySQL) and core CS fundamentals (data structures, algorithms, OOP, databases). Recently gained hands-on experience in AWS Cloud Computing, Linux basics, and shell scripting. Proficient in Git/GitHub, with expertise in source code management, branching strategies, and CI/CD automation. Keen to deepen knowledge in AWS and engage in real-world cloud-based projects.

SKILLS

- Linux
- GitHub
- Jenkins
- Kubernetes
- Cloud Platforms
- Docker
- Version Control
- Git
